

PARK VIEW LAKE.

No Day Tickets

Members only

Night Fishing by season permit only.

Pegs 9 and 10 (on the concrete block) are for the use of disabled anglers, and should not be 'match-pegged'

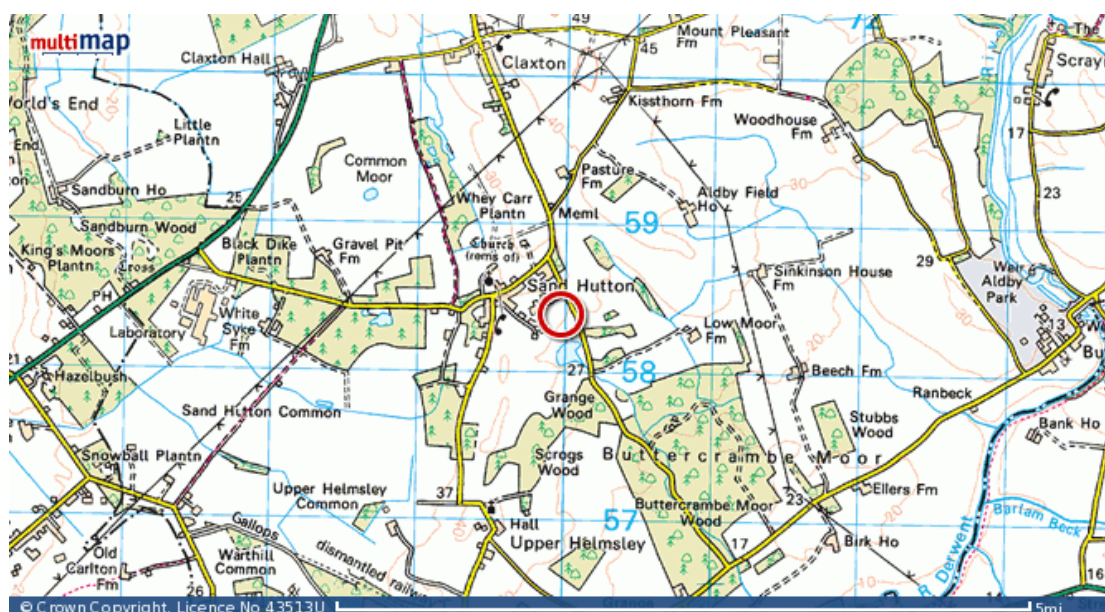

Please close and lock the gate after arriving and when leaving the pond.

An old estate lake situated some 5 miles north of York. With a good head of bream, tench, roach, perch and a number of double figure carp and pike.

This venue offers the pleasure, match and specimen angler a great variety of top class sport.

Park View is YDAA's premier water for specimen carp, with a good number of double figure fish and some running to over 20lb. Tench and bream average 4-5 lbs with some close to double figures.

Most modern carp tactics are used on the lake, (TWO ROD LIMIT) and the tench and bream respond well to float or feeder fished corn, caster, worm and bread flake. Large numbers of small roach and perch are also present which the pleasure angler can catch using waggler tactics with maggot or caster as bait.

From the York outer ring road take the A64 to Scarborough. After approximately 2 miles take a right turn at the DEFRA Labs towards Sand Hutton. After the tight left-hand bend coming into Sand Hutton, pass through the village and take the second turn on the right. The lake is approximately three quarters of a mile down this lane, through a metal gate on the right hand side. Parking is available next to the lake. Please make sure the gate is closed **AND LOCKED** after use.
