

York & District Amalgamation of Anglers.

Newsheet 331 (01.15.)

CORRECTION.....CORRECTION.....CORRECTION.

Yet more.....

Match bookings.

2015 Year Book, page 37..... The first Veterans match, Sunday 10th May will be on Marley pool, (50 pegs), not Brown's.

There also a couple of other match dates to be reviewed, changes will be advised here.

BOOK SALES. Since the availability on the website was opened on 1st December activity has been fairly brisk, showing that take up has been an increase on the same period of last year. Roughly 140 old and new member's books have been sold. Interestingly enough some 80 former members who have usually renewed by this time have not yet done so....perhaps waiting for warmer weather?

MATCH "POOLS". Following a small problem at one of the year end matches, Solicitors advice has been taken and it shows that (confirmed by the Gaming Commission) that where an angling match is designated as a "skill" event, rather than a "chance (luck) event, than the Intermediate category of angler taking part may be entitled to enter the 'pools'.

GENERAL PURPOSES COMMITTEE. If any member is interested, or would like to take part in, the running of the Amalgamation, there are a limited number of vacancies on the Committee. This taking part would mean a commitment of 12 monthly meetings (Wednesdays at 20:00 hours) plus the A.G.M. attendance. Anyone willing to 'come and join us' please contact the General Secretary.

There is, of course, a small incentive.....

GAME PERMIT HOLDERS. Anglers holding these cards should take note that no publicity regarding their catches should be made without the express permission of the General Purposes Committee.

YORK C. & I. U. ANGLING SECTION. It is with some disappointment that the demise of this once thriving angling club is accepted. Although they did affiliate in 2014, no-one apparently was willing to come forward and take on the running of the section. Some of York's finest anglers had their names on the trophies and it is a shame to see all these, and other great achievements, by individuals and teams be consigned to the history books.

FLOODING/LITTER. It is the time of year when, no doubt, the river will take a trip out of its banks and venture into the flood plains, thus trapping fish when it returns home. Hopefully, when this happens much of the litter will be carried away. Two points to consider... if you see fish stranded, call 0800 80 70 60, to get the Environment Agency to effect a rescue.....if there is litter in your peg when you go fishing, please take it home and dispose of it in the bin.
