

York & District Amalgamation of Anglers.

Newsheet 355 (01.17.)

YEAR 2017. A very Happy and Prosperous New Year and “Tight Lines” to all members.

LAYBOURNE LAKES. On 11th December one of our Bailiffs visited the water and round Marley Pool (the others were comparatively clear), he filled a sack with rubbish including one (1) plastic bag containing no less than five empty corn tins some meat tins, plus the usual amounts of bottles cans etc., elsewhere round the pond. *What will it take to get the message through?*

BENINGBROUGH HALL FISHERY. It has been brought to my notice that a number of anglers have been parking on the approach road to the Hall gates. The correct access to this water is left at the gates, over the cattle grid thence left, bearing right, then left again and parking against the hedge at the rear of the car parking area. There is to be no parking on the approach road to the Hall.

MEMBERSHIP SALES. Since the new booklet was printed a couple of small anomalies have been eradicated and sales since the inception on 1st December have been going reasonably well. The 2017 card is required if you wish to go fishing anytime onwards.

WORK PARTIES. (Y. D. A. OF A. under “new management”). It has been agreed that work parties on various waters will be taking place on the second Saturday of each month, commencing on 14th January at Hemingbrough pond. If you would like to attend, (help to preserve your fishing) please turn up dressed appropriately with suitable tools for bank clearance etc. Details of future ‘expeditions’ will be advised through the medium of the website “www.ydaa.org.uk”.

REQUIRED WORKS. The vast majority of our waters have now allocated to them a ‘team’ of Bailiffs and Committeemen who have undertaken to visit the waters irregularly to examine and report back on what needs doing to keep the ‘up to spec’. Whilst this will be very beneficial to the upkeep of the waters, anglers fishing should also report anything that they think needs “looking into”.
