

York & District Amalgamation of Anglers.

Newsheet 358 (05.17.)

BENINGBROUGH PARK. A complaint has been received about anglers arriving in the early hours and parking by the stile access to the water. This was obviously before the “close season”. It should be noted that parking is available for anglers over the cattle grid, then left and left again, parking neatly to the hedge. When the season opens again this is the only parking that should be used by anglers and parking on the approach road and by the gates and stile is expressly prohibited.

Please respect your riparian owners conditions for lease of waters.

WORK PARTY AT BURN ROAD. A further work party has visited this venue and the ‘bouncy castle’ remains have been destroyed. Due to planned improvements the vegetation (branches etc.) over the gate need removing to allow vehicular access.

Once again a call goes out for volunteers to get their hands dirty – don’t be shy!

This appeal also applies to other waters where a few helping hands will result in more comfortable fishing.

WORK PARTIES. It is proposed to hold the next two work parties at Poppleton and Red House. Please see website for full details.

BAILIFF’S MEETING. Following the comparative success of the last get together, it has been decided to hold a further session. This is to be held on Monday 5th June at the club headquarters. Those who were unable to attend the previous one are asked to arrive for a 19:30 hours start with those and the rest of the General Purposes Committee attending at 20:00 hours. Anyone unable to attend is asked to let the either of the following Trustees know, D. Carr (d.carr388@btinternet.com, or 01759 304176), or M. Longhurst (treasurer@ydaa.org.uk, or 01404 430815).

PARK VIEW LAKE. It has been reported that signs placed at this venue by your Committee have been ‘messed about’ and tampered with. Please refrain from these activities as the signs have been put up for the guidance and obedience of the membership.

ENVIRONMENT AGENCY MATCH RETURN CARDS. It is pleasing to report that thanks to the efforts of the Club secretary’s in completing and sending these cards we have again achieved ‘full bonus’ payments which will go the benefit of the junior anglers within the organisation. Well done, and thanks again, gentlemen. Keep sending them in for this year.

BOOK SALES. As is usual at this time of year (close season) sales are showing a slight drop in ‘take up’, but no doubt when the 16th June approaches they will pick up again. At present we are a few down on what we were at at this time last year.

MATCH SCALES. Due to continuous use for a good number of years these have now been checked and some have been found to ‘wanting’. It has therefore been agreed that one set need recalibrating and a further three new sets need to be bought.

FOSS BASIN. It has been reported that some adult and junior anglers have been fishing this water in recent weeks. This is the ‘close season’ and therefore fishing in the rivers is not allowed, Pike excepted.
